

Demonstration of Proposed Features

Date	15 July 2026
Team ID	SWTID-2026-1518
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Login	Allows users to securely access the application.	Implemented	Yes	Working successfully
2	Applicant Data Entry	Users can enter applicant details such as income, age, employment, and credit history	Implemented	Yes	Fully functional
3	Data Preprocessing	Cleans and prepares the input data before prediction.	Implemented	Yes	Tested successfully
4	Credit Card Approval	Predicts whether the credit card application will be approved using a machine learning model.	Implemented	Yes	Accurate prediction generated
5	Result Display	Displays approval or rejection along with prediction outcome.	Implemented	Yes	User-friendly interface
6	Model Performance Evaluation	Shows model accuracy and performance metrics for evaluation	Implemented	Yes	Accuracy evaluated successfully

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
