

Project Demo Planning

Date	15 July 2026
Team ID	SWTID-2026-1518
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, and explain the need for credit card approval prediction.	2	Keerthi Sree
2	Problem Statement&Dataset	Explain the problem, dataset, data preprocessing, and features used for prediction.	3	Jyothika Batchu
3	Machine Learning Model	Describe the ML algorithm, model training, testing, and prediction process.	4	Trishitha Chengalvarayam
4	Live Demonstration	Demonstrate the application by entering applicant details and showing the prediction result.	4	Gundrathi Yashitha
5	Results & Performance	Present model accuracy, evaluation metrics, and discuss the benefits of the system.	2	Chandra Harshitha
6	Conclusion & Future Scope	Summarize the project and explain possible future enhancements.	2	All Team Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the importance of predicting credit card approval using machine learning.
2	Solution Overview	Describe the dataset, preprocessing, machine learning model, and system architecture.

3	Live Feature Demonstration	Show applicant data entry, prediction process, and approval/rejection result.
4	Q&A Session	Answer questions from the faculty and explain technical decisions.
