

## Project Initialization and Planning Phase

|               |                                 |
|---------------|---------------------------------|
| Date          | 15 July 2026                    |
| Team ID       | SWTID-2026-1581                 |
| Project Name  | Credit Card Approval Prediction |
| Maximum Marks | 3 Marks                         |

### Define Credit Card Approval Prediction Problem Statement:

Define the customer problem for the Credit Card Approval Prediction project. This statement explains the challenges faced by applicants during the credit card approval process and helps identify how an AI/ML solution can provide faster and more accurate approval predictions.

### Example:

| Problem Statement (PS) | I am (Customer)                  | I'm trying to                  | But                                  | Because                                   | Which makes me feel             |
|------------------------|----------------------------------|--------------------------------|--------------------------------------|-------------------------------------------|---------------------------------|
| PS-1                   | A male applicant seeking a loan. | Secure a loan for the property | Married with no co-applicant income. | Self-employed with a good credit history. | Optimistic about loan approval. |
