### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

Persona: Applicant seeking credit card approval through the bank's online/offline application process.

|                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SAYS</b> <ul style="list-style-type: none"> <li>• “Why is my credit card application taking so long to get approved?”</li> <li>• “I don't understand why I was rejected when my friend with a similar profile got approved.”</li> <li>• “I wish the bank could just tell me upfront if I qualify.”</li> </ul>                                                                | <b>THINKS</b> <ul style="list-style-type: none"> <li>• “Is my credit score good enough for this card?”</li> <li>• “Will applying hurt my credit score even if I get rejected?”</li> <li>• “I hope the decision is fair and not biased against people like me.”</li> </ul>                                                                 |
| <b>DOES</b> <ul style="list-style-type: none"> <li>• Compares credit card offers across multiple banks before applying.</li> <li>• Fills out lengthy application forms with income, employment, and financial details.</li> <li>• Calls customer care repeatedly to check application status.</li> <li>• Searches online for eligibility criteria and approval tips.</li> </ul> | <b>FEELS</b> <ul style="list-style-type: none"> <li>• Anxious while waiting for the approval decision.</li> <li>• Frustrated by unclear or delayed communication from the bank.</li> <li>• Relieved and confident when approved quickly with a clear explanation.</li> <li>• Discouraged when rejected without a clear reason.</li> </ul> |
